Dear Jeff,

I appreciate what you have said though the Commissioner made a decision that none of the gateways were applicable, a position supported by the FTT in its decision. Whilst the Judge at the UT did say in his permission decision that the question of the gateways is a matter for the discretion of the ICO, he went on to say that disclosure would also "undermine the confidential basis upon which the Commissioner received the material".

The Commissioner's position remains unchanged.

Regards

Richard
